DOWN THE RIVER WITH YOU!

Corsica, an Island in the Mediterranean, is a paradise for kayaking that you need to come and explore. Bountiful amount of rivers, all a stone's throw from one another accompanied by snow topped mountains and more rivers that flow to white beaches into the ocean.

We have two guided courses this April-May. Showing you the best of what this Island has to offer, from stunning crystal clear grade 3 rivers to waterpark-like slides on the famous Travo river.

Great camping and hidden hot Springs along with the beach sunsets.

Airport pickup in Bastia with your seat in the Arkadventures bus.

What's not to like?

Check out our website for more information and we invite you to float down the river with us!
